

Digitalisation of the Commodity Trade | 27 June 2019 | Geneva

A joint venture between COCERAL and Gafta, this afternoon seminar will explore the latest developments around e-trading.

Presentation sessions will explore a number of developments from the Agri-Initiative group as well as interactive sessions exploring how digitalisation of the industry is progressing and links with other arms of the trade, such as finance and legal considerations.

The Programme has now been published (see attached).
